

PRESS RELEASE May 7th, 2009

Armvida, LLC, a leading developer of MicroTCA based Enterprise Solutions, today announced a ten slot 4U MicroTCA Rack.

The EDGE2000_RACK is a ten slot MicroTCA compliant platform. It is used to rack mount up to five EDGE2000 MicroTCA systems. TheEDGE2000_RACK is ideally suited for space constrained environments and the Enterprise. Maintaining all the value that MicroTCA specifies, the EDGE2000_RACK is a price aggressive offering that has the following attributes:

- **MicroTCA compliance**
- **High Availability Design**
- **Consumes only 4U**
- **Front to Rear Airflow**
- **EDGE2000 Mounting**
- **Optional door**
